

**125°C RATED FABRIC-OVER-FOAM GASKETS**

Laird Technologies EcoTemp Series FoF gaskets are composed of metallized fabric wrapped around a soft non-urethane foam core. They are supplied with either a non-conductive or electrically conductive pressure sensitive adhesive (PSA), and can be equipped with an Extended Release Liner (ERL) on the adhesive. The EcoTemp gasket is a halogen-free product that can be created with square and rectangular cross-sectional profiles. The EcoTemp gaskets can be further customized to an application by die-cutting, hole punching, notching, etc.

FEATURES

- EcoTemp 125 Fabric-over-Foam gaskets are RoHS compliant
- Halogen-free per IEC-61249-2-21 standard
- Extremely low compression set values at higher temperatures
- Available with conductive and non-conductive PSA
- Rectangle and square cross-sectional profiles available in 0.125" and 0.250" thickness
- Profile gaskets can be cut to specified lengths, kiss-cut on release liner, or mitered to form frame configurations
