

Tflex HD300 Directions for Use

Shelf Life:

Shelf life for Tflex HD300 is 2 years from date of shipment at the storage conditions specified below.

Storage Conditions:

Recommended storage conditions are 0-35°C. Store in original product packaging until ready for use.

Application Instructions:

1. Remove the clear liner by separating it from the pad at one corner. Peel back the liner in one swift, consistent motion as close to an 180° angle as possible.
2. Fold the die cutting gap filler and push the gap filler from the corner to make it separate from the clear liner.
3. Peel off the gap filler from the clear liner and place it onto desired substrate.
4. Cover the exposed gap filler or continue the assembly process to avoid contamination of the surface from dust and debris.
